## FIRST TRIALS UNDER NEW PROHIBITION LAW

To Come Here Thursday In Cases  
of Two Bearwallow Men  
Caught With Still

The first trial to be held in Madison county and probably the state under the new prohibition law which gives lower courts jurisdiction in liquor law violations, will come before County Judge John D. Goodloe next Thursday.

Mat Lakes and Wesley Rose were arrested by Sheriff Elmer Deatherage and a posse of deputies and federal agents near Bearwallow this county early Friday morning. A still was found and destroyed. The worm, however, was brought in, together with six gallons of white whisky. About 400 gallons of mash ready to be run was destroyed. Each prisoner was held under \$1,000 bond for his trial on Thursday before Judge Goodloe. Rose gave bond with Kelly Rose as surety.

The officers made the raid about daybreak Friday and met with no resistance. With Sheriff Deatherage were Deputy Sheriffs Franklin Deatherage and Richard O. Mohrley. Constable Arthur Lynch and Federal Agents Ott and Huff.

## 14,900 MINERS IN KENTUCKY AFFECTED

By Strike Which Goes Into Effect  
April 1—20 States Have Half  
Million Men

(By Associated Press)  
Indianapolis, Mar. 25—Suspension of work in the coal industry throughout the unionized fields of the country will directly affect more than a half million workers in the coal fields of 20 states. Twenty thousand Canadian miners also belong to the United Mine Workers of America, Nova Scotia forming one union district and the western provinces forming another.

The great numerical strength of the United Mine Workers of America is in the soft coal industry, the Central Competitive Field, comprising Western Pennsylvania, Ohio, Indiana, and Illinois, having a combined membership of approximately 215,000. The anthracite industry, centered in three fields, in Pennsylvania, employs 155,000 men of whom approximately one-half are in the union. In past strikes, however, the union has practically succeeded in bringing a complete walkout in the anthracite fields.

The approximated distribution of union miners by states, obtained from union sources here, is as follows:

Pennsylvania	151,825
Illinois	98,900
Ohio	49,000
West Virginia	48,100
Indiana	31,000
Kentucky	14,800
Ark. Okla. Tex.	13,100
Iowa	12,200
Alabama	11,500
Tennessee	10,700
Kansas	8,350
Missouri	7,650
Wyoming	7,250
Maryland	5,250
Colorado	4,675
Montana	4,625
Washington	2,125
Michigan	2,000
Canada	20,000

(By Associated Press)

The program of striking at the non-union fields was decided upon by the general policy committee of the United Mine Workers of America. It will center in Pennsylvania, where there are 100,000 non-union workers. Special organizers will be sent there. Other non-union fields expected to be invaded include Kentucky, West Virginia, Alabama, Colorado, Maryland and Washington. Union officials say their plans contemplate peaceful penetration.

## TO REPORT ON GOLF CLUB SITE MONDAY

Fans To Meet and Decide On  
Location of Links and Other  
Organizations Plans

On Monday night at 7 o'clock at Masonic Temple, there will be a very important meeting of all those in the town and community who are interested in any way in the establishment of a golf course. Since the former meeting of the golf fans, the property committee has been busy looking up probable locations of the course, and getting opinions on certain properties and the conditions on which they can be secured. This committee is ready to make its report Monday night and will have some very interesting information for the golf fans.

Since Richmond inaugurated the movement for a golf course Paris has gotten into the game and organized a club. Winchester, Danville, Paris, Pineville and Middlesboro will be playing golf this summer. It is contended by those promoting this matter that Richmond is the best town in the bluegrass and is entitled to just as good recreation as any of her neighbors.

In view of the excellent blue grass turf in this section, it is estimated that a course can be started at a much lower cost than in many places and that the membership fee can be kept sufficiently low to make golf possible to everyone who wants to play.

For the information of those who may hesitate on account of expense it may be interesting to know that a good set of golf clubs, made by McGregor or Wright and Ditson, two of the best manufacturers in the country, can be bought for \$12.50 while the matter of golf lesson for the beginner is usually a small item. In the club at Winchester where they have 116 members they have never had a professional trainer at all. Two or three lessons at from one to two dollars each are sufficient for the average player and probably half the members of the average club, pick up golf from other players and from practice.

The aim of those interested in this progressive step in Richmond is to bring the game within the reach of every possible player and at the lowest possible membership fee. It is believed that on some of the proposed properties the fee can be made unusually small.

However, the matter will be decided finally Monday night and everyone interested in making Richmond a better town, as well as playing golf is invited to be present.

## STATE BOARD TO HELP DISABLED SERVICE MEN

(By Associated Press)

Frankfort, Ky., Mar. 24—Disabled soldiers throughout Kentucky now are able to obtain the aid of the state in prosecuting claims against the Federal Government, for compensation due them under the various acts passed by Congress. The Disabled Ex-Service Men's Board formed under a bill passed by the General Assembly, plans to make this aid easy by having officials visit every county in the state to secure data and advise with the men as to how to push their claims.

The board is composed of General Jackson Morris, Adjutant General; Emmet O. N. A. State Commander of the American Legion; Mrs. Scott Dumas, State President of the Women's Auxiliary Units of the American Legion; and Henry J. Stites, Mr. Stites is secretary and at a recent meeting it was decided that Mr. Stites should visit the various counties as rapidly as possible and explain to the service men what their rights are under the various laws. General Morris will accompany him on some of his trips.

Mr. Stites recently visited the headquarters of a disabled soldier at Knoxville, Tenn. There he found that approximately 100 disabled veterans were receiving compensation as a result of the work of the board. Although exact figures are not available, it is believed that as many disabled men in Kentucky as in Tennessee are now receiving compensation.

The office of the board in the state capital at Frankfort. Men entitled to compensation are asked by the board to make inquiries from residents of the various American Legion posts. Women's Auxiliary units or to address the board directly.

The purpose of the board is to explain the laws to the men and to enable the United States Veterans' Bureau to maintain contact with disabled men.

The board already has received names of more than 500 Kentucky ex-service men who are claiming for compensation under the August 1, 1921, law, which has not been adopted in several and large counties, which have already been visited. A number of cases were found which will receive immediate compensation," said Mr. Stites.
